S.E. (Computer) (I Semester) EXAMINATION, 2018

COMPUTER ORGANIZATION AND ARCHITECTURE

(2015 PATTERN)

Time : Two Hours **Maximum Marks : 50**

N.B. :— (*i*) Neat diagrams must be drawn wherever necessary.

(*ii*) Figures to the right side indicate full marks.

(*iii*) Use of calculator is allowed.

(*iv*) Assume suitable data if necessary.

1. (*a*) List the elements of Bus Design. Explain any *two* elements of Bus Design. [6]

(*b*) Using Booth's algorithm multiplies the following : [6]

Multiplicand = +22

Multiplier = −5 [6]

Or

2. (*a*) Draw and explain data flow of floating point addition. [6]

(*b*) Explain Direct cache mapping technique with its advantages and disadvantages. [6]

3. (*a*) What are data transfer modes of DMA ? Explain any *two* in detail. [6]

P.T.O.

(*b*) Discuss the following I/O mechanisms for transferring data with a neat flowchart : [6]

(*i*) Programmed I/O

(*ii*) Interrupt driven I/O

Or

4. (*a*) What is Machine Instruction ? Explain types of Machine Instructions. [6]

(*b*) Explain the following addressing modes along with suitable example : [6]

(*i*) Direct addressing

(*ii*) Indirect addressing

(*iii*) Displacement addressing mode

5. (*a*) Draw and explain the functional block diagram of 8086. [7]

(*b*) Explain the use of the following registers of 8086 CPU : [6]

(*i*) General purpose registers

(*ii*) Segment Register

(*iii*) Pointer and Index register

(*iv*) Flag Register

Or

6. (*a*) Draw and explain instruction cycle state diagram. [7]

(*b*) Compare superscalar and superpipelined approaches in superscalar processor. [6]

7. (*a*) Explain the following instruction execution phases with suitable example : [7]

(*i*) Fetch the instruction

(*ii*) Fetch the operand

(*iii*) Execute the instruction

(*b*) Draw and explain Microprogrammed Control Unit. [6]

Or

8. (*a*) Explain in detail the following microinstruction sequencing techniques : [6]

(*i*) Single Address Fields

(*ii*) Variable Address Fields

(*b*) Name the different design methods for hardwired control units. Explain in detail with any *one* design method. [7]
